

Open the Door...

**GENERAL GERBER**  
CONSTRUCTION, INC.

...to creative, quality construction.

A  
At **General Gerber Construction**, it's no accident that the eagle serves as our company's icon. From early Native Americans to the patriots of the 21st century, the bald eagle symbolizes honesty, quality, strength, independence and respect.

We chose the eagle to represent who we are because its symbolism encompasses all that we do. With a constant focus on the quality of our work, we gain our strength from our family-owned company roots and build our client relationships with honesty and mutual respect.

For more than 40 years, we've been serving the Denver metro community with the following construction services:

- Commercial
- Multi-family
- Residential
- Structural repair

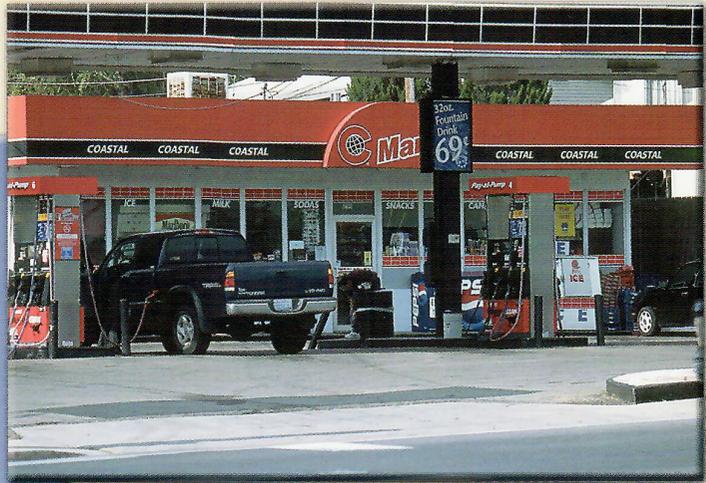

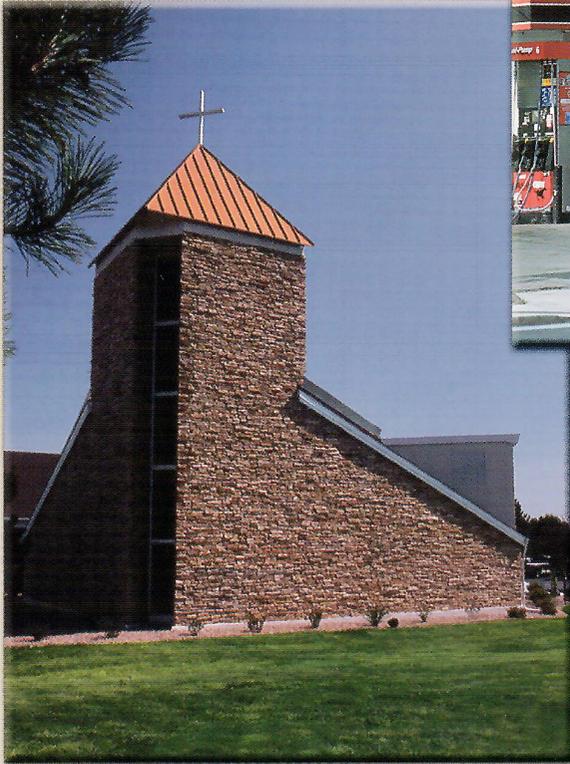

Whatever your construction needs, we have the expertise and skills to contribute to your success. No project is too big or too small, and our capabilities run strong throughout the construction process – from design to close-out.

The reputation of **General Gerber Construction's** high level of personal service and professionalism comes from years of successful projects and satisfied clients. We take as much pride in building strong relationships with our clients as we do in building their projects.

Let us begin building for you.

**GENERAL GERBER**  
CONSTRUCTION, INC.

## Commercial Services

From retail stores and car dealerships to churches and schools, the **General Gerber Construction** team has made its mark as a dependable and quality-driven provider of commercial construction services.

Just ask one of our many happy customers, such as Wayne E. Street of Northwest Friends Church: *“Joe Gerber and his staff were attentive to all of our needs... The quality of work and the quality of their organization deserves high praise.”*

Our experience and highly skilled construction professionals can handle any commercial project. The range of our commercial services is vast, including:

- Development from the ground up
- Major renovations and remodels
- Tenant finish
- Structural repair

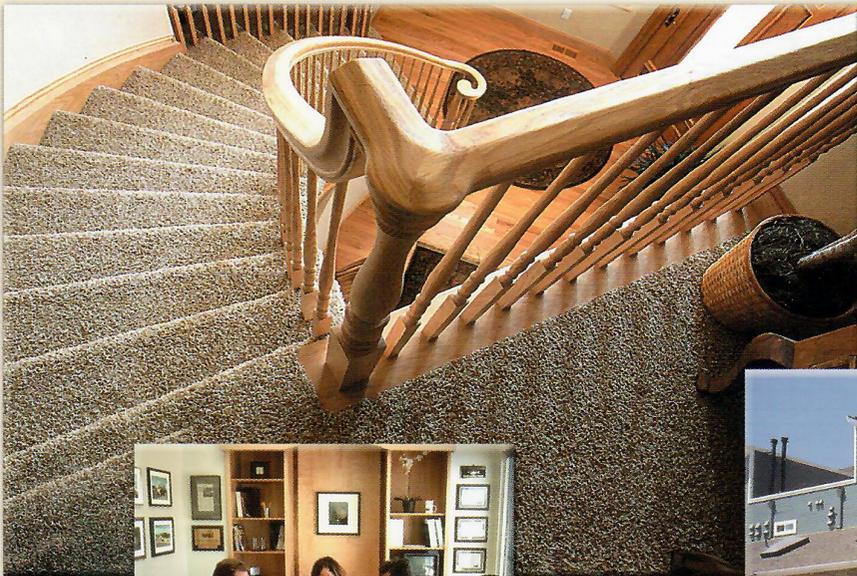

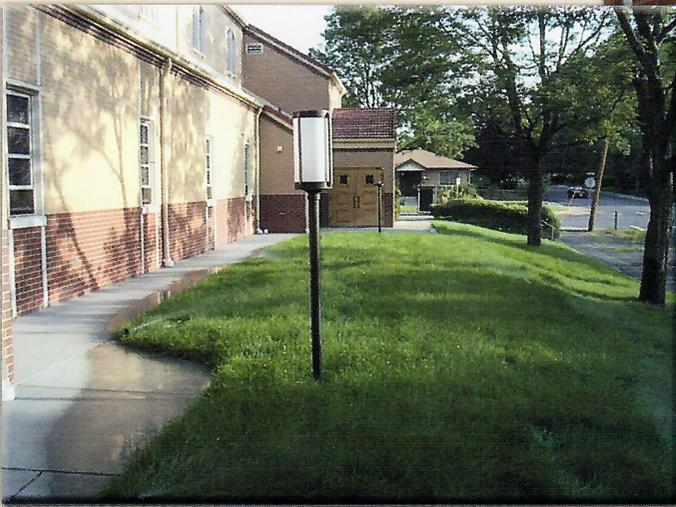

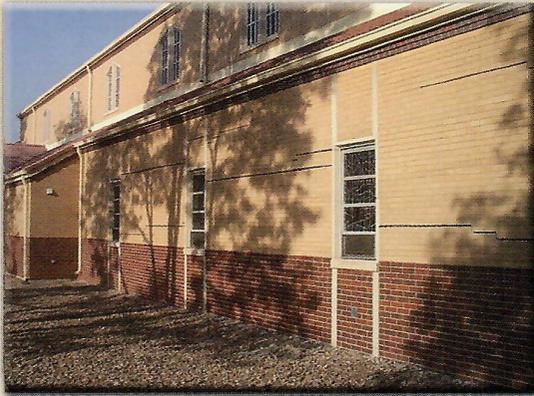

## Multi-family and Residential Services

We're proud of our numerous condominium, townhome, duplex and custom home projects that so many people now call "home." Sherman and Mary Jones couldn't be happier with their new condo and their experience with General Gerber Construction. *"In this day and age, it is hard to find a company with such honesty and fairness as you have shown,"* they praised.

We know that the quality of our work impacts others' quality of life, so we combine our professional construction management techniques with the finest craftsmanship for exceptional results.

Whether it's ground-up construction and management, improvement of existing units or necessary structural repair, **General Gerber Construction** gets the job done.

## *Structural Repair*

Cracked and/or sinking foundations, damage caused by water and other major structural problems create the need for repairs no building or home owner wants to confront. Unfortunately, these problems do happen, and when they do, **General Gerber Construction** can help.

We understand why structural problems occur, and we look at all the possible solutions to fix them. We combine our problem-solving strategy with new technology to make structural repairs easier and less costly for our clients.

Our results exceed our clients' expectations without exceeding their budgets.

**GENERAL GERBER**  
CONSTRUCTION, INC.

For more than 40 years, we've had the pleasure of working with many clients, subcontractors and vendors, including many very talented architects and engineers. It's the ongoing relationships with these people that have helped General Gerber Construction grow and thrive. To these people, we want to extend a heartfelt "thank you" for being part of the Gerber team. We appreciate each of you, and we look forward to working together as we build the future.

When you look at the lock featured on our cover, you may only see its simple elegance. But on the inside is a very complex multipoint system that many builders would shy away from. At Gerber General Construction, we approach all our projects the same way we approached this lock. We identify each unique complexity and work together to provide high-quality results.
